Directors Message

It is about time that we pause for a moment and ponder "What are we running after? What is it that we are trying to achieve and what is it that we want our children to be?" We were at a similar crossroads when we laid the foundation of MS Creative School. Just like you, we were concerned about the future of our children without sacrificing our culture, our values, our identity.

We understand it is a great responsibility as the parents repose complete trust in us. It is quite challenging unless there is complete cooperation from all quarters including parents. Therefore we advocate Parent Collaboration and request you all to attend all the Parent Teacher Meetings, follow up on your child's progress, give your suggestions in person or call us on Quick Solutions. It is an exclusive parent support system monitored by me to cater to your needs.

Since the inception in 1991, we have been focused on providing congenial Islamic environment while enhancing quality of modern education which has now become a phenomenon. We have designed Value based curriculum to impart Islamic values and life skills and have also setup Central Academic Development Cell to ensure these are properly planned and taught to the children.

Alhamdulillah! The results have been very rewarding. Our children have been consistently scoring 10/10GPA in SSC exams. We have been awarded Best School of the year by the Government for AP for not just Academics but also for Discipline. We have also been awarded Pratibha Award for excellence in education from the Government of Andhra Pradesh consistently since 2005.

Other than the regular activities, We organize events like Grand Parents Day, Graduation Ceremony, Akhlaaq Show and Dream Big to create awareness among our students, develop leadership skills and make them Responsible citizens of the society.

MS Philosophy

Education is the best gift that parents can give to their child. We believe in Educating a child during its various stages of development while being aware of its motivations and changing interests. Therefore, our philosophy as explained below is obvious right from our intention to the actions of every individual in the organization.

Our Intention (Niyyat): *Khidmat-e-Khalq*
We believe that all our work should be dedicated towards service to our community in particular and service to the humanity at large.

Vision: *Roshan Mustaqbil*
Through our work, we envision bright future of our students and staff in particular and community and the country at large.

Mission: *Tarbiyath aur Khair Khwahi*
To fulfil our vision, we made good upbringing of students and welfare of the staff as our mission so that we stay focused, grounded and result oriented.

Values: *Aqhdaar*
In order to fulfil the purpose of our organization, we promote and practice certain values that must be adhered to by one and all. These are our guiding principles our work ethics, our identity. We hold close to our heart the social values of Respect, Integrity, Diligence, Motivation, Optimism and Compassion.

Goals: *Miyari Takeem*
Our goal is to provide Quality Modern Education in Islamic Environment to nurture true muslim citizens who shoulder the responsibility of the nation selflessly.

Curriculum

Curriculum is the sum total of all learning experience a child undergoes including academics, activities, learning environment, assessment & interaction with teachers, students, parents all together from the moment a child walks in the school until he/she steps out.

In the race for success, schools are gradually moving towards fast paced methods, aiming at instant results. However, Schooling should be natural and balanced, the way a tree grows taking its time to nurture appropriately with nourishment through education and experience, concepts and values, confidence, character and career thus shaping an All round personality.

At MS Creative School. We have designed Value based curriculum in accordance with National Curriculum Framework to focus on all round development of the children so that they identify their identity, realize the need and become leaders of tomorrow.

At MS, Curriculum is comprised of: **Objectives, Syllabus, Methodology, Resources, Assessment, Activities, Scheduling, Observation, Feedback and Research**.

Syllabus

We teach our children all required subjects along with Deeniyat. These subjects provide knowledge and we ensure that required skills are imparted so that the learning is complete. The syllabus is designed as per age group, psychological development including **Cognitive, Intellectual, Behavioural, Emotional, Spiritual, Physical, Communication, Aesthetic and Leadership development**. Therefore, while balancing Modern and Islamic Education, we promote Responsibility and National Integrity to ensure the child is well rooted with Culture and Patriotism.

MS CREATIVE SCHOOL

Nurturing Creative Potential

Methodology

Pedagogy as it is said scientifically, is the art of teaching to ensure learning happens. Every child is different, so is every subject and thus the method of teaching should be appropriate. A child centric approach with heuristic method is required for an effective teaching-learning process. We have researched on this very concept of teaching-learning and depending upon the personal traits of children, designed Islamic Star Methodology for All round development as illustrated below:

MS CREATIVE SCHOOL

Nurturing Creative Potential

Resources

In order to justify the expectations of Curriculum, we provide the right resources at the right time for the right duration. The most important resource is the Teacher herself. We ensure that we provide passionate teachers who are well qualified and expert in our methodology. They employ relevant **Teaching Aids, Audio Video Aids, Smart Classes, Science Lab, Computer Lab, Library, Field Trips and more**.

Assessment

Examophobia, the fear of exams is the most common stress in students today. Irony is that, it is found even in tiny tots who have just started their journey in education.

At MS, we have implemented the Continuous Comprehensive Evaluation system that evaluates the actual learning and skills of the students rather than measuring what they have memorized by rote learning. This is done through **day to day observation, Oral work, Hands on experiments, Research, Projects, Class Participation, Individual and Group Activities, Quizzes, Debates, Informal tests, Classwork / Homework, Peer evaluation and more**.

We conduct Formative and Summative Assessments along with **Behavioural Assessment to ensure good conduct, values, discipline, life skills other than academics**.

MS CREATIVE SCHOOL

Nurturing Creative Potential

Environment

Environment strangely has contagious quality which inevitably spreads its vibes to people around. Man being very good at imitation, naturally is effected by his immediate surroundings.

Taking advantage of this pulse, we serve an environment that is a perfect blend of etiquettes, discipline and values in the desired proportion. In fact this is the utmost need of the hour as in the present society, these important elements are considered as antiques minus value and taken a back seat.

These aspect are taught here, after they are extracted from the prescribed Islamic Preaching very soon making the child realize that he is not a mere flotsam and jetsam in the current scenario but has power to swim against the stream to reach the shores.

We have introduced house system to boost the spirit of learning, team work, responsibility and leadership. The houses are Motivators, Inspirers, Leaders and Challengers. They are given the responsibility of conducting morning assembly and organize weekly campaigns.

MS Advantage

When it's time for making the most crucial decision of selecting the right school or college for your child, you are in for a challenge. Opinions are many and so are the choices but how to make a decision rather right decision for the future of the child. This question is more experienced than discussed.

To make it easy, we provide a simple list of advantages that you will have when you embrace MS. This list is apart from the regular provisions, facilities and services you will find in any other institution.

If you need any clarification or further explanation, you are always welcome to visit any of our branches and we will be glad to assist you.

Meeting Expectations

Faculty: Teaching is their passion not profession. Our Faculty is at the core; They not just teach, but discover subjects along with students. We handpick each and every staff member through rigorous process of selection to ensure that we only have the most dedicated, competent, motivating faculty capable of catering to the intellectual needs of the students with varying potential. Parents are equal partners in Education and our teachers collaborate with them in effective UPBRINGING of the Child.

Accountability: We feel accountable for the progress of the students, we motivate them, work diligently along with them and when the Results are out, we take pride in them. We sincerely believe that "It's not your child but OUR child, hope of our community. Let's script their future together".

Quality: What we say is what we do and this forms the quality policy of our institutions. Quality has to be planned at every step of the process. Therefore, we have setup departments like Academic Cell and Research Foundation to ensure consistency in planning of academics for all the branches, Quality assurance in monitoring and professional enhancement in training of the staff.

MS CREATIVE SCHOOL
Nurturing Creative Potential

Results: Alhamdulillah! Our results speak volumes about our commitment. We have delivered many state ranks in SSC Board Exams, Intermediate Public Exams as well as Engineering and Medical Entrance Exams. Many average students became toppers which proves that we also specialize in creating toppers from the average too. 41 students above 9 CGPA in SSC 2012 and 230 students above 90% in IPE 2013 is a testimony to our sincere efforts and sheer dedication. Please visit awards and achievements section for details.

Compassion: We understand the needs of our students and we are there for them whenever they need us. It is with compassion that our students become our children and school becomes their home.

Smart Work: We believe in not over stressing our students or making them work too hard for that matter. Therefore, we continuously discover ways of working smartly so that they are not only prepared for exams but also for challenges in their lives.

Focus on Fundamentals: We make the subject logical by focusing on fundamentals and they connect the concepts to understand and excel in those subjects. We have devised many techniques in this regards and Memory Notebook is one such tool this helps in easy learning, retaining and recalling.

Academic Coordinators: They act as mentor to the students. They are available for each section to help the students as well as the Faculty in the time of need. The students can get information with regards to their assignments, study material and results from them. They also monitor their behavior.

MS CREATIVE SCHOOL

Nurturing Creative Potential

Shaping Personality

Motivation: Apart from regular classes, we have special motivation get togethers for Self Discovery that helps them realize their potential and develop never-let-go attitude; thus shaping a confident personality that achieves its goals with flying colours.

Personality Development: We instill Confidence, Self Motivation, Positive Attitude, Integrity, Empathy, Passion, Truth, Sincerity in our students. So that they develop strong personality confident which is a gift to the society and the whole world.

We organize Educational Seminars to promote leadership We invite eminent personalities who have achieved their dreams; and can now inspire our youth to realize their responsibility towards the community and the country.

Life Skills: As pert of the grooming process we train our children in communication skills, interpersonal skills, family affairs and stress management, this way they maintain good relations with one and all.

Memory Development: It is a challenge for the young minds to learn, retain and then reproduce when needed. Memory training is a part of the curriculum that makes learning easier. We also teach Mathematical methods of faster calculations so that the child develops confidence and affinity towards Analytical Thinking, Reasoning and Strategy.

Career Guidance: Efforts without a Purpose doesn't achieve Results. We have experienced professionals from different fields who counsel students set their targets on professional studies as well as the Future job prospects.

Spiritual & Moral Guidance: Spiritual experts (Aalim-e-Deen) works with our staff and students to enlighten them with religious teachings,. These teachings cover moral values, behaviour with self & society (Akhlaaq, Muamalaat) other than the fundamentals.

It helps them stay disciplined and exhibit best conduct.

Providing Facilities

Environment: Children cannot be forced to believe or behave. Therefore, We create an environment that instill discipline, concentration, spirit of competition, spiritual motivation and thirst for success. An environment that is consistent, conducive, safe, healthy and prosperous and uninfimidating so as to let the child grow, learn, groom and develop confidently while carving his/her Identity.

Medical: Students are our top priority and so is their health. We have Regular Medical and Dental Checkup. We also maintain their Medical records. Parents are counseled if need be to ensure good health of the child. After all Health is the biggest blessing of the Almighty. We listen with care and create environment wherein they can discuss if there is any medical need. We also have JIT (Just in Time) mechanism to handle any medical emergency or acute medical attention by calling Doctor or taking the student to the facility. First-Aid supplies are readily available at the reception.

Scholarships: We value best efforts and results. Therefore, we offer many scholarships for meritorious students as a fee waiver upto 100% in top batches of excellence. Other than the meritorious scholarships we have many alternate bursaries for the deserving and the seekers. We have provisions for good Samaritans of the society as well.

Accommodation: For High School we maintain Just like Home environment to cut down the chances of depression often encountered by students of this age. Right from Food, Bedding, Relaxation, Toiletries to Safety and Security, everything is maintained with utmost diligence. Study hours are mentored, Prayers are encouraged and other activities are monitored religiously. Rooms are spacious and clean. Home cooked, hygienic food is provided at the hostel. Transportation facility to and from school is also provided. However, Seats are limited and are only allotted at the sole discretion of the management.

Exclusivity: Separate blocks or buildings are maintained for boys and Girls in chools, Colleges as well as Hostels. Utmost care and precaution is taken in assigning duties in such campuses so that male staff is for boys and girls get only the female staff.
