MSians communicate "Islamic Business Etiquettes" through AKHLAAQ SHOW

Chairman Mohammed Abdul Lateef Khan and Chief Guest Khawaja Moinuddin (Retd IAS) handing over the GRK Award to SSC 2017 topper Mohammed Ismail Owais Khateeb.

Hyderabad: The four day Grand Annual Function of MS Creative Schools entitled "AKHLAAQ SHOW" was held at Lalitakala Toranum (Open Air Theatre) Public Garden from 17th February to 20th February 2018.

During these four days, the students of various branches of MS Creative Schools of Hyderabad showcased their best of Akhlaaq (etiquettes and moral values) through various stage performances. They also displayed the themes of the show through dozens of stalls. All the decorated stalls showcased creativity. All these stalls were well planned, designed and decorated by the students themselves under the guidance of their teachers.

This year the theme of the Akhlaaq Show was "**Business Etiquettes in Islam**". The theme is more relevant in the context of current economic scenario

which has lost ethics and values from its practices. The students tried to convey the message by portraying the correct concept of trade and commerce.

Donning armed forces uniforms, the students of selected branches presented Guard of Honour to the Chief Guest and other guests. A skit was also presented on the functioning of Indian Army in which the prowess and the bravery of the Indian Army was depicted. On the final day, the students of Malakpet branch, comprising a contingent of Army, Navy and Air force, presented a professional style of March past.

It is the worth mentioning here that AKHLAAQ SHOW" is a part of the MS curriculum. It is a theme based programme through which the students not only learn the subject but also communicate the message to

the society at large. This programme is organised annually in a grand way to inculcate good etiquette and ethical values among our students. The theme of the "AKHLAAQ SHOW" changes every year. Programmes on 1) Akhlaaq Towards Parents, 2) Akhlaaq Towards Neighbours, 3) Akhlaaq Towards Non-Muslims, 4) Akhlaaq Towards Elders, 5) Akhlaaq Towards Women 6) Akhlaaq Towards Teachers 7) Akhlaaq Towards Animals, etc. have been organized in the past years. The students were given prizes, mementos and certificates for their achievements in regularity, etiquettes and manners, academics etc. The students who scored 10/10 GPA in SSC examination were given the GRK Award. The National Anthem was sung at the end of the programme as a mark of respect to our motherland.

Management creates 'Baitulmal Fund' to pay needy students' fee

Hyderabad: Management of MS created a Baitulmal Fund from their "ZAKAT money to sponsor the poor and needy students studying in MS. The fund is being used to reimburse the fee of defaulter students who are good at studies but financially weak and could not pay their school fees, informed Senior Director Moazzam Hussain.

"The management has set up a corpus fund of their zakat money to reimburse the fee of students who belong to poor families and are unable to pay the fee", said the senior director.

Detailing the fund, he said the management and students poured in their contribution to constitute this fund. And now rupees 15 lakh has been accumulated in this corpus fund.

An amount of rupees 15 lakhs has been spent for this scheme so far.

We have found that many brilliant students drop out of school due to financial problem. We have seen that despite being meritorious students, their poor parents discontinue their studies. We have taken this step when such things came to our notice.

None of the students should discontinue their studies due to such financial problems.

Management plans to utilize this fund to help those who deserve zakat as per Quran and Hadiith. We also intend to help in Relief work and emergencies.

Through the Eyes of Camera

This section entitled "Through the eyes of Camera" is a new section of MS World. It is introduced first time and tries to cover the live activities of MSians through photos. There is a famous maxim in English language that says **A picture is worth a 1000 words**. Instead of describing the events through words we tried

to convey the emotions and actions through pictures. Each photo is accompanied with a brief caption to explain the event. Moreover there are some of the live moments and emotions of the MSians which can only be conveyed through pictures than text.

Wisdom Infinite

“Tolerance and non-violence, is it applicable today?”

“An eye for an eye makes the whole world blind” was a famous quotation by Mahatma Gandhi. Mahatma Gandhi was polite, patient and most of all a non-violent person. He felt that by harming others, we are not doing anything more than harming ourselves.

Today we can see that the world is moving in a violent direction, where power is everything. But we must make sure that we are moving in a non-violent direction. We must also encourage others to follow the same path as we do. According to me tolerance and non-violence are highly applicable today. First of all people must reduce the threat of nuclear war. We must also protect those people who are suffering from war. We must also promote peace movements.

There are many ways in which we can live a tolerant and non-violent life. But people still like to have a violent life. We must be different. We must always follow the path of non-violence.

INTENTION – The first step to success

Everything we do in a day, in fact lifetime; begins with intention. We intend to get up, dress ourselves and go to school. We intend to take stairs instead of lift. Have salad for lunch and enjoy with friends. But the fact is we begin with intentions. We make choices every day.

As far as I believe, the result of the intention is sometimes positive and sometimes help us to improve something we're not good at. Every day is a new chance to begin with the intent of having a great and a happy day.

We should start our day with the mindset that we will be successful today with a good attitude. **“Our intention creates our reality** – Wayne Dyer. Every

morning you have two choices either to continue to sleep with your dreams or to wake up, make intention to chase the dreams because intention leads to behavior which leads to habits which leads to personality development which leads to **DESTINY**

So wake up every morning and remind yourself – ‘I can do this’ with positive intentions to better yourself and the lives of those around you because incredible things can happen as long as you keep your mind open and your intentions pure. Just try to make intention for 28 days, which consumes 1 minute each day. It will turn into your habit and surely this habit can make your destiny beautiful!!!

The Patriotic Mother

Abadi Bano Begum, who was popular known as 'Bi Amma' was one of the prominent voices of the freedom struggle in the Indian sub-continent. Not only was she one of the first Muslim woman to participate in politics actively, she was also a revolutionary who had a strong desire to see her country free from the British rule.

Bi Amma was born in 1850 in a nationalist family of Uttar Pradesh whose family members suffered great losses during the revolt of 1857. She was married to Abdul Ali Khan, who was a senior official in Rampur state.

Bi Amma had one daughter and five sons including Maulana Shaukat Ali and Muhammed Ali Jauhar who were popularly known as Ali brothers. Abadi Bano Begum was a progressive thinker.

Even though she never received any formal education, she believed deeply in advantages and effect of acquiring modern education. She sold her jewellery and property to educate her sons at the Aligarh Muslim University and the Oxford University. Bi Amma was widowed at a young age. She raised her sons with utmost sincerity instilling the value of nationalism in them. Her son Muhammad Ali was a prolific English and Urdu writer and one of the founding members of the All India Muslim League.

Both Muhammed Ali and his brother Shaukat Ali were among the prominent figures of Khilafat movement. Her son joined the freedom movement and was put behind bars for his activities. While her son was in jail, she toured the country addressing the people in

large numbers inspiring them to participate in the freedom struggle.

All her life, she believed in strict purdah. Even when she spoke to the country people on behalf of her jailed son in 1917, she remained behind her burqa.

It was in fact, the first time that a Muslim woman addressed a political gathering wearing a burqa. She also took part in Khilafat movement and freedom movement encouraging the woman to join the cause. As a result of her tireless efforts, the entire nation was echoing the lyrics, **“Boleen Amman Muhammad Ali Kee jaan Baita Khilafat Pai Daido”**. She passed away soon after the end of Khilafat movement on November 13, 1924.

GENEROSITY

On a hot sunny day, Akbar decided to go out to have an ice-cream. “Where are you going?”, Akbar's mother said to Akbar.

“I'm going out for an ice-cream, on my bicycle, replied Akbar. “Ok dear, come back soon”, said Akbar's mother.

As Akbar set off with his bicycle, Akbar's eyes could not get out of sight, when he saw an old man trying to wear his foot wear. Akbar stopped his bicycle, and went to the old man, and asked him that if he needed some help. The old man looked at him and replied “Yes, my boy, I need you to fit this shoes. I'm an aged man, it hurts when I try to bend, it aches my back a lot.

Dear boy if you'd be so kind, please help me” said the old man to Akbar. Akbar, with no hesitation fitted the shoes, then the old man thanked the boy, and left. The next day, at the assembly, Akbar's name was announced for giving the generous card of the month.

Akbar was confused, but then he found that a teacher was present near the scene of Akbar and the old man, and saw the whole thing.

The teacher was pleased with Akbar and she talked with the principal for giving Akbar” the generous card of the month”.

Moral:

People can earn a lot of good deeds, just by being generous. For instance, how Akbar helped the old man just by fitting a shoe in his feet, but it makes in return a huge gratitude.

Be Thankful to Allah

Once upon a time there lived an ant named Sheenu with her family. She was hard working and lived very happily with her family. They made their ant hills and stayed in that ant hill. Every day a colony of ants gathered in a place and discussed how to collect food.

One day, a colony of ants were going to collect the food. While going they heard some noise. The noise was becoming louder and louder. Suddenly a herd of elephants appeared and that was marching

towards their colony. They destroyed the ant's hills and also killed many ants. Sheenu, the ant was safe by Allah's will. But her family was also killed in this incident.

Now, she was left all alone. But she thanked Allah in this condition also. And she said, “Alhamdulillah!!!”

Moral: We should thank Allah in every condition whether good or bad.

INSPIRATIONAL

“Be deaf to negative thoughts if your aim is to reach your goal”

Once upon a time, a frog was standing under the tree. He thought to see the forest from the top so he decided to reach the top of the tree. His friends were also standing under the tree. The frog started climbing upon the tree. His friends discouraged him by saying that he can't do it. But he continued climbing upon the tree. His friends screamed that he could not do it. But the frog reached the top of the tree.

How was it possible? It was possible because the frog was deaf. He thought that everyone was encouraging him to reach at the top. But, actually his friends were discouraging him by saying that it's impossible for him to reach the top of the tree. So the moral of the story is: “Be deaf to negative thoughts, if your aim is to reach your GOAL”.

1) There are many kinds of robots. One special kind of robot takes the place of people guiding air planes and ships. They are called automatic pilot. These robots are real computers, programmed to do just one special job. They have the information to control the speed and direction of the plane, ship.

2) Robot are used for many jobs which a person can't get too close because of danger such as exploding a bomb, robot can be controlled from a distance. This is called remote control robot. These robots are very important in studying space. In future robot will be used to work on space stations and on other planets.

THE POWER OF WORD

Some words heal and some words hurt,
 Some cause sorrow and some cause mirth.
 Some words are harsh, bring grief and tears.
 Some words soothe troublesome fears
 Some words kill and some give life
 Some hit as hard as a steel tripped knife.
 Harsh words come from a thoughtless mind.
 Sweet words belong to a heart that is kind.
 So you open not your mouth in haste.
 Think twice before you speak each word.

My Memorable Excursion

It was a memorable small trip which I cannot forget. My parent informed me that we all would be visiting "Burj Khalifa" - the tallest building in the world.

As per plan my father picked up me, my mother and my sister in the car and we started moving towards our destination.

It was just 10Km from our home. We reached there within half an hour. Standing in front of the world's tallest building, we clicked photographs and then reached at the 124th floor of "Burj Khalifa". We reached there by using the fastest lift of the world which took 60 seconds to reach at the top - a record in itself.

At the top of the world's tallest building we observed Dubai city and the glimpse of horizon on the western side. It looked like the earth and the sky were meeting at horizon. We clicked many photographs and came back home. It was really a very memorable and golden moments which I will remember always in my life.

So I am Told

I'm a fourteen-year-old girl with mass-coloured hair, sparkles and funny clothes, who feels lonely sometimes. I do not ask to be understood because I can't even understand myself.

I ask to be accepted as I am.

I do not want to be told what potential I have,

Or what my future holds.

I do not want to be told that I'm going nowhere in life because I skipped the math test.

I question my existence, my meaning.

I question what the "Real World" is, and why I'm not there.

I feel happy with no shoes on.

I feel lonesome in a crowded room.

Sometimes my heart bleeds and I cry,

Laughter echoes in my minds.

I am told to be different,

But then I am told what to wear and how to act.

I like to write and rumors hurt.

Please don't try to understand me, nor judge me too quickly.

My name doesn't matter. My heart is open.

Voyage of English Fiesta culminates on Republic Day

Reporting : Ruksana Mushtaq
English HOD, CARD

Hyderabad: The ardent English Fiesta anchored the final harbour on the Republic Day after a voyage of 3 months. Its journey began with the random selection of students giving emphasis to the house system prevailing in MS schools. The topic of this year's fiesta was 'Patriotism'.

The selection of this theme enhanced and promoted patriotic spirit among the younger generation. This zealous event paid tribute to those unsung or unknown Muslim heroes who have made a remarkable contribution in this epic India's struggle for independence but have been somewhere lost in the Indian history and remained in the shadows.

For ex: Husain Ahmad Madani; Syed Abid Hassan Safrani; Abadi Bano Begum; Mahmud al-Hasan; Rafi Ahmad Kidwai and many more. One student from each house; from each class and from

each branch was selected for each event, at the corporate office by the Head of the English Department. This type of selection opened the doors of opportunity to all students irrespective of popularity.

This mega event organized competitions of two types – Oral and Written. Six types of written events spread themselves over a period of one and a half month.

They became the embellishment of most Saturdays and were confined to Intra branch levels. They were properly planned and organized well at the branches.

The eight oral events were taken up very enthusiastically. Topics like : Patriotism in Islam; Role of Muslims during partition; Islam promotes nationalism; India: An emerging power in the world- were also included in the ocean of topics.

The event 'Odyssey of Mind' was the lofty event of this Fiesta. The topics - Protecting our Heritage: Maintenance and awareness of monuments and Contribution in Literacy - 'Each one teach one'- were truly justified.

Students participating in the oral events went through a series of skimming & churning for a period of one and a half months.

The participants had to undergo Intra branch prelims followed by Inter branch Semi-finals. 1651 participants competed at 4 different venues (2 for boys and 2 for girls) in the Inter branch semi-finals on 19th January 2018.

Then the cream of the Fiesta had to face the toughest competition at the Inter zonal finals held on 26th Jan 2018.

The 200 winners of the semi-finals faced each other again at 2 venues (one for boys and one for

girls) at the Inter zonal finals held on 26th Jan 2018. One hundred students were the winners of this mega fiesta.

The theme patriotism reflected the patriotic feelings of the students highlighting the Muslim unsung heroes and their valuable contribution in the freedom struggle.

Rough Diamonds would easily be passed up on the beach, looking like nothing more than broken glass that may have washed up on the shore. The famous beauty of a diamond only appears after a fine cleaving.

Our teachers have polished those raw diamonds into sparkling and lustrous fine diamonds. Random selection of students transformed the uncut diamonds into treasured gems.

This Fiesta also aroused the patriotic feelings among the MSians (students of MS)

MSians display empathy towards poor and needy, Distribute fruit packets among patients

Hyderabad: Social skills like empathy, good akhlaaq and moral values are not a theoretical thing for the MSians. They learn how to behave every day in their class and school assembly. They not only learn these social skills but also practice them in their daily life. They exhibit their social skills through their actions.

In one such act class IX students of Malleypally branch saved their pocket money and spend them on charity. They purchased blankets from their collected charity and distributed

them among the needy people who were sleeping on the road.

They also went to Nilofer Hospital, where they distributed fruits among the patients. By doing such acts they showed empathy towards those people and realized the pain and suffering of poor people.

In another example, the junior and senior class X students of Malakpet Girls block distributed 700 fruit packets among the

patients of Osmani General Hospital. These girls, instead of spending the money in their farewell party, decided to go to the hospital and distribute fruit packets among the poor patients. When the intention of

these students came to the notice of the management, they not only appreciated it but two directors personally accompanied them in their good deeds and supported them.

THE CREATOR

There is a Creator Who is Almighty
All knowing and all watching
Nothing can be hidden from His eye.
Someone in joy and someone in sigh.
There is a Creator Who is Almighty
All knowing and all watching
He is the Lord of the universe
He made the earth from molten ball
And made beautiful nature and water fall.
There is a Creator Who is Almighty
All knowing and all watching
He made animals and human beings
Who sent prophets and Quran for preaching
Guided human to right path and revealed
the truth of life through his teachings.
There is a Creator Who is Almighty
All knowing and all watching
He made satan with fire
And ordered him to bow in front of
Adam, made by mire; satan denied
Almighty in anger threw him out of Paradise
There is a Creator Who is Almighty
All knowing and all watching
So follow my advice
To achieve Paradise
Be honest and loyal to your Almighty

TO MY MENTORS.....

A Preacher of education is
what you are,
Just a teacher is what I thought
you were.
I never knew you would make
such difference in my life,
You always taught me to strive
I was a loser upon whom you
showed pity,
You made me a chooser of
my own destiny.
I'll remember all the lessons
taught by you,
I'll make sure that they are
always in view.
I promise you dear teacher that
I'll never let you down,
I'll always place you high up
on the mount.
I pledge that I'll work harder and
stronger with all my might,
Till I am in everyone's sight.
People speak of remembering
you very often,
But I bet I'll remember you till I lie
in my coffin.
Just another human is what you
are to the world,
But a great teacher is what
you are to me.

ONE IN A MILLION

You ain't no longer a
common girl
Got dreams precious
than a pearl
No matter, the expectations
are how high
You have to do it
before you die.
Keep away from all those
glitters which are no gold
Because your love and
respect are not to be sold
Increase your focus
and try harder
Because in the race of life,
there is no ladder.
Find a way to light
In all darkness, make
your own light.
Keep your heart filled with fire.
Kill all those desires
because it's a liar, Lie
One day, these sleepless nights,
Will help you reach the
greatest heights.
The reasons to walk away
will be a billion.
But you have to become
the one in a million!

Winds of excellence from MS Junior College!

Soothing parents, teachers and community at once

Dr. Syed Misbahuddin

Hyderabad : Perfection is a myth but what we can achieve is excellence. Thanks to Almighty, MS Education Academy proved it time and again. Starting with a baby step in 1991, MS has been meeting all challenges to push community's expectations further by delivering exceptional results. 27 years on MS stands tall with humility, excellence and vision. Bagging State 1st rank this year not only in Intermediate First year with 437 out of 440 but also in Intermediate Second year with 991 out of 1000 is a testimony to this claim.

To bolster further, it's not just couple of ranks but a saga of achievement with more than 14 students scoring 99% and above, 134 students above 98%, 625 students above 95% and 1252 students breaking the boundaries of 90% and above.

Director Afzalur Rahman reported that Sania Fatima d/o Abdul Waheed (HT No. 1860116102) scored 437/440 while Sara Zareen d/o Zahooruddin (HT No. 1860117858), Tazakka Juwana d/o Abdul Jabbar (HT No. 1860119122), Summaiya Mohsin d/o Md Jahangir (HT No. 1861137543) and Zeba Banu d/o Aijaz Ali Khan (HT No.1861137539) scored 436/440 each in Intermediate I year.

While relating the hardships of students Senior Director Moazzam Hussain mentioned many unbelievable stories of setting records, busting myths and breaking boundaries to stand tall against all odds in their difficult lives.

It's not sheer luck rather fruits of a passion driven system that is based on handpicked faculty, minutely crafted schedule with trackers, deeply researched study material, committed Management and potential students commented Associate Director Sadiq Ali. While motivating students in valedictory function he mentioned, the entire system is tuned to identify varying talent, interest and aptitude of the students and designing individualized study plan for them to perform accordingly.

In this utopian inspired society, where everyone wants to be a topper, we believe in imparting values and spirit to sacrifice. We train students to be contributors by helping them dedicate sometime for literacy campaign, patriotic activities and social service thereby 'preparing world worthy individuals'.

“విద్యార్థుల బంగారు బాటకు - వేసవి సెలవుల సద్వినియోగం”

‘నేటి బాలలే రేపటి పౌరులు’ అని మనం చదువుకున్నాం, విన్నాం. ఇది పూర్వం. కానీ నేడు పరిస్థితులు మారుతున్నాయి. ముఖ్యంగా ఈ వేసవి సెలవులను వారికి, సద్వినియోగం చేసుకునేలా కొన్ని సూచనలు చేస్తున్నాము. అవి.....

1. తల్లిదండ్రులు కనీసం ఈ సెలవులలో పిల్లలకోసం ఎక్కువ సమయం కేటాయించాలి. కనీసం వారంలో రెండుసార్లు వారికి నచ్చిన చోటుకి తీసికెళ్లి వారితో గడుపుతూ వారి సుఖసంతోషాలలో భాగస్వాములు కావాలి.
2. పిల్లలు వారి సొంత ఆలోచనతో ఏదైనా పని చేస్తే దాన్ని గమనించి అది మంచిదైతే వాళ్ళని తప్పకుండా ప్రోత్సహించాలి. అంతేకాని వారిని ఇలా చేయకూడదు అలా చేయకూడదు అని అంక్షలు పెట్టకూడదు.
3. అవసరమైతే వారితోపాటు మైదానానికి వెళ్లి ఆటపాటల్లో పాల్గొనాలి.
4. కనీసం 2 గంటలు చదువు కొరకు కేటాయించి రాయడం, చదవడం, చెప్పడం పై ప్రత్యేక శ్రద్ధ వహించాలి.
5. మోటర్ సైకిలు, మొబైల్ ఫోన్లపై ప్రత్యేకంగా దృష్టి పెట్టాలి.
6. అర్ధరాత్రి వరకు అటు ఇటు తిరుగుళ్ళు తిరగకుండా చెడు స్నేహాలకు అలవాటు పడకుండా చూడాలి. అలాగే సమయానికి సరైన ఆహారం, నిద్రపై దృష్టి పెట్టాలి.

Importance of parenting in child's growth

Parents role is important in child's well-being either its physical social or emotional. Being a parent is most responsible and challenging job than any other job but unfortunately none of us approach parenting as we focus for jobs. Parents often get less involved as their child grows but child will require parental attention throughout the life.

We often see that parents get very alert once the child starts going to school thinking about their daily chores, homework, sending them to school on time making them complete their tasks. Once the child is off to school there is a time for parents to breath but when the child is on

vacation the other challenges starts and needs all your time. where the child needs communication, attention and attachment with parents. Secure attachment between parent and child, encourages healthy development, builds resilience, paves the way for how well your child will function as an adult in a relationship, and have a positive impact on brain development. Hence effective parenting is required for child's positive development.

Tips for effective parenting to start for this summer

1. Talk with and listen to your child -Communication is important both verbal and non-verbal (hug, touch,) communication.
2. Be your child's first source of information. Encouraging your children to ask questions.
3. Explore all areas of your child's development -- physical, intellectual, social, emotional and moral.
4. Support your child's interests and talents.
5. Try to spend time alone with each of your children every day.
6. Praise your children's differences and avoid comparing
7. Make time for family activities.
8. Set limits and Explain your rules and decisions

Special supplement for summer vacation

Why Summer Camps are important?

Summer holidays is a time when children get enough time to indulge in fun-filled activities, participate in adventure sports, family outings and lots more. At a time when urbanised middle-class nuclear families with both the parents working are witnessing a rise in their disposable income, summer camps are emerging as a viable alternative to help kids develop good personality traits and skill sets that can be useful for them life-long.

Following are some of the learnings offered by summer camps to children:
Teamwork: At summer camps, kids learn to work together to achieve a goal. It helps them to understand the importance of team work and help them become a team player. Through the teamwork activities at summer camps, students discover and realise the true value of relationships. They learn that the team gets benefitted as a whole when mutual support is strengthened. Each child as an individual empowers him/herself to contribute towards the success of the group as a whole.

Self-Motivation: At summer camps, activities like ropes course are conducted to inculcate fighting spirit in children. Summer camp activities are designed in a way to help kids endure setbacks, try new things, and see how improvement comes when they give something another try. As they proceed through the course their confidence builds, and in turn they accomplish a task that seems impossible. Children's accomplishments act as a catalyst and empower them to tackle a more challenging task.

Decision Making: Experience gained at the summer camps provide children an opportunity to become self-reliable immensely confident to take decisions on their own in any adverse situation.

Flexible to Changes: Summer camps enable kids to try new things by putting themselves out there. They improve themselves to obtain desired results. Living in tents, cooking food, climbing ropes, and

overcoming obstacles are life accomplishments that kids are nurtured within a camp. These skills help in building character and boosting courage and determination of the children. At home amidst all the luxuries, it is tough to enhance confidence, courage and flexibility. Countering an unpleasant or unfamiliar situation at summer camps provides an opportunity to children to grow in ways they never would by remaining confined in their comfort zone Future Ready Summer camps help children gain self-confidence as they learn new

skills, in a safe and secure environment. The camps let children develop a variety of social skills like communication, conflict resolution ability and make them future ready.
