## Happy Teacher's Day

No number of thank you cards, flowers or gifts can ever be enough to express the gratitude for the innumerable contributions of teachers in our lives..

From the moment we step into our classrooms, away from our parents, until the time we graduate, teachers guide us throughout, gently and firmly.

Even during the pandemic, teachers are doing an exemplary job by taking the virtual route to help students access education- from using virtual reality, hosting interactive lessons or even checking in with their students. There's a lot we should be thanking our teachers for, especially this year.

On this exciting movement of Teachers day, let's don't miss to remember the teacher of humanity, teacher of brotherhood from the peninsular Arabia in the 7th century after Christ.

In the Quran Allah says that he was chosen by , as a prophet and a teacher to teach God's laws to mankind and guide them in the right path. "It is He who has sent amongst the unlettered, a messenger from among themselves, to rehearse to them His signs, to purify them, and to instruct them in the Book and wisdom, - although they had been, before, in manifest error". (The Quran 62:2).

A similar verse of the Quran confirms that the prophet has been sent by God as a teacher to instruct people in scripture, wisdom and in new knowledge. (2: 151)

As per the Quran God chose Muhammad as His final prophet to make people believe in One universal God for all mankind and to guide humanity in the right path by giving glad tidings and warnings. (The Quran 7:158, 48: 8-9)

This preaching mission which was started by the prophet at the age of forty, continued for twenty three years. The first ten years were the years of great tribulation, torture, suffering and discrimination. Of course there were offers too of worldly treasures and pleasures if the prophet gave up his mission.

Undaunted the prophet continued his mission with firm faith in God. These difficult circumstances never deterred his passion for teaching the truth. His next thirteen years in Madinah was a favourable period in which he became its undisputed leader. Yet he never gave up his mission and his passion for teaching the message continued till his death such that the entire Arabian Peninsula was engulfed by his message and teaching.

Let's thanks to Allah for the teachers He sent towards us for changing our lives and for the great teacher as Muhammad (PBUH) who taught us the moral values, who showed the right path and who saved us from the fire of jahannam..

And I pray on behalf of all my teachers that may Allah increases in our rizq and knowledge and gives us all the more wisdom and keep us all as the blooming flower in the garden of teaching and learning..

*A very Happy teacher's day to you All..*

*My dear respected teachers..!*

*Alhamdulillah!*

Assalamu Alaikum, Online learning have been both effective and difficult for kids of this age. Specially pre primary education. As it is basic learning for them . In my opinion something is better than nothing . I hope we get out of this situation soon so kids enjoy school environment. They cant catch that much in 2 days of a week as they would do if they were school going for 6 days.

**LOVING Parents**

I blink my eyes, I raise my brows  
 You raise me how best I can grow  
 I Jump up high and clap my hands  
 You help me walk, run and stand  
 Chocolate, ice-cream makes me drool  
 Ammi abbu you are super cool  
 My parents can be little nosy  
 Even so, they gave me life so cosy  
 My dynamic Dad is my hero  
 My super Mom says I am her hero.  
 Therefore, they make sure  
 I should not get zero  
 The middle of the gates of paradise is father  
 Paradise lies under the feet of mothers  
 So, meet them, treat them, greet them well  
 If you hurt them, break them, go to hell  
 Golden parents are real treasure on this land  
 Who wish for my success always grand  
 No matter they turn weak and grey  
 Your supplications saves me everyday  
 Beloved parents, presenting my tribute  
 You bear me, care me, and protect me when I was cute  
 You rose me up very hard and always been affectionate  
 With you everything is possible, the only  
 Impossible is your substitute

**Poetry: School days**

Lock down is a scary time so  
 I thought that I could  
 write a rhyme  
 To put a smile on lots of faces from around the world on  
 lots of places  
 Two pairs of shoes, two pairs of dress  
 Bag was so heavy but there was no stress  
 Waking up was so hard, dressing up was pain,  
 milk was a must, mom asked bournvita or plain .  
 Late to assembly eyes  
 searching for a gang,  
 Smiles meant high five,  
 lips read a slang ,  
 Classroom and syllabus,  
 teachers would ask understood?  
 lunch break went hungry,  
 as we already ate the food,  
 Oh school my school,  
 You make me smile,  
 Hey! Classmates let's go again for a while ????
