

## RAMZAN MUBARAK 1436 HIJRI

### The Month of Mercy and Blessings

Ramadan comes after Shaban and before Shawwal. This is the most special month for every Muslim. In this month we have to fast for 30 days. This is the only month when all the Shayateen are trapped. This is the month of mercy and blessings. This month is meant for purifying our souls and paying so much of attention towards Allah (S.W.T). We should and must stay away from bad habits. We should avoid backbiting. We should avoid touching those things which do not belong to us. We should avoid hearing bad things. We should be away from sin. In short, in this Holy Month we have to cleanse our souls from impurities and pray to Allah (S.W.T) and ask forgiveness from Allah (S.W.T). We have to offer a special prayer in Ramadan, that is "Taraweeh", We have to offer this prayer after Isha. We also have to avoid things that are 'Prohibited', In short spend as much time as possible worshipping Allah. The month ramadan trains us to live a life of perfect muslim and we should try to follow this discipline life throughout the year.

Huria Fatima | Class IX-G

Once upon a time, there was a girl called Radhika. She was eleven years old. She lived with her parents.

Radhika was the only daughter of her parents. She was obedient and caring.

There was a teacher, 'Mrs. Ayesha Fatima', at her school. Radhika was Mrs. Ayesha's favourite student. She used to praise Radhika because at such an early age, Radhika's manners and behavior were commendable and appreciable. She was a sincere and an obedient student.

On the other hand, at home Radhika always used to talk about her teacher and believed that, she was an ideal and a wonderful teacher, who always treated her students like a mother and showed the right path and always put efforts to inculcate good habits and manners.

Radhika's best friend Zaara was

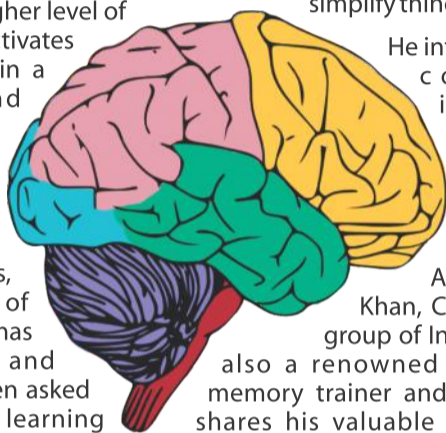

# MS INTRODUCES METACOGNITION IN CLASS ROOM

To achieve exemplary results and excel in the field of education, MS has introduced metacognition in its class room from this academic year.

MS is the first and only educational institution in the entire Telangana and Andhra Pradesh region that introduces such innovative high level of learning technique in the classroom. Explaining what metacognition is and how it works, Syed Misbah Uddin, Executive director said, "Metacognition is a higher level of thinking process. It activates the thought process in a deeper manner and provides active control over the cognitive processes involved in learning". He further said metacognition focuses on study skills, memory capabilities of the students. It also has the ability to track and monitor progress. When asked how this innovative learning

technique is helpful to the students he said "By mastering metacognition way of learning, the students will learn the right way to approach a task. It also enables the students to comprehend and execute the task with finesse. Metacognition optimizes the learning process and once they learn, the concepts get ingrained in them.

He said, the Research centre of MS has constantly been working to create a learning environment conducive to better performance and simplify things for students.

He informed that the concept of introducing metacognition in classroom was the brain child of Mohammed Abdul Lateef Khan, Chairman of MS group of Institutions. He is also a renowned and certified memory trainer and he frequently shares his valuable knowledge of

memory, mind map and metacognition with his principals, teachers as well as the students.

Using various powerful research based techniques, he helps students to improve their thinking skills.

## BLESSING CONTINUES

Alhamdulillah! after a remarkable performance by MSians in SSC - 10/10, Intermediate Junior College - State 1st Rank and Degree College - University 1st Rank, we are blessed by serious of more achievements.

- In 2015 - 120 MSians will get free MBBS seats.
- 37 qualified IIT Mains and 6 qualified IIT advanced.
- More than 800 students secured 90% and above after improvement in IPE.

# MY TEACHER MY ANGEL

Mrs. Ayesha's daughter. They daily, used to go to school by school-bus. Radhika loved to sit beside Mrs. Ayesha during her ride in the school-bus.

On one such ride, while going back home in the school-bus, the bus-

were mesmerized with the candies but Zaara was not eating the candy and was sitting with a desolate look on her face. She went in the bus and called out Zaara and inspite of rushing joyfully, Zaara seemed quite upset. Radhika went near and asked her to come but Zaara whispered something in her mother's ears, which Radhika couldn't hear and Mrs. Ayesha refused.

Radhika was quiet confused. She requested her teacher to allow Zaara to go with her. Mrs. Ayesha softly said no to Radhika.

Radhika's best friend was upset and made her feel bad. She tried to convince her teacher but she again refused she insisted, then Mrs. Ayesha humbly said, actually she and her daughter were fasting. As it is the month of Ramadhan and Muslims fast during this month.

They don't eat or drink from dawn to dusk.

Radhika said, 'Ma'am, it is a matter of only one candy and one candy will not break her fast'.

'I will hide and make Zaara eat the candy'. Hearing this patiently with a smile, Mrs. Ayesha said, 'There's no such place in the whole world, where you can hide anything from Allah'.

'Allah alone is the creator of the world and he knows everything from pole to pole.

'One candy will definitely break fast and it's like disobeying the command of Allah'. Mrs. Ayesha said.

Indeed, the teacher sparkled the student's life with truth, belief and honesty.

### Moral of the story:

It is a teacher, who cultivates faith, imbibes values, encourages thinking and reasoning along with teachers the eternal truth of Qu'raan, which helps in building character and personality.

## HOW DO WE DEFINE SUCCESS ?

**Syed Afroz Banu** (Principal)  
**MS Creative High School**  
Asif Nagar, Mallepally Branch

What is Success? How do we recognize success? To some people, success might mean wealth. To others, it is recognition, good health, a good family, happiness, satisfaction, and peace of mind. What this really tells us is that success is subjective. Success means different things to different people. I feel "SUCCESS" is:

### **SUCCESS IS THE PROGRESSIVE REALIZATION OF A WORTHY GOAL.**

- Earl Nightingale  
"Progressive" means that success is a journey, not a destination. We never arrive. After we reach one goal, we go on to the next and so on.

"Realization" is an experience. Outside forces cannot make me feel successful. I have to feel it within myself. It is internal not external. That is why what often appears as success externally may be total hollow within.

"Worthiness" refers to our value system without which goals can be unworthy. Which way are we heading? Towards positive or negative goals?

Worthiness determines the quality of the journey. Goals are important because they give us a sense of directions.

### **SUCCESS WITHOUT FULFILLMENT IS EMPTY**

I don't know the key to success, but the key to failure is trying to please everybody.

- Bill Cosby  
Success does not mean being liked and accepted by everyone. There are some groups I would not, out of choice, want to be accepted by. I would rather be criticized by fools than appreciated by unsavory characters.

Success and happiness go hand in hand. Success is getting what you want and happiness is wanting what you get.

Existence alone is not success! It is a lot more!

Do more than exist – live.  
Do more than touch – feel.  
Do more than look – observe.  
Do more than read – absorb  
Do more than hear – listen.  
Do more than listen – understand.

## HOW TO BE PRODUCTIVE IN RAMADAN

Ramadan is a month of rejuvenation physical as well as spiritual. It makes our life so organized that it makes us wonder if we could be so much productive. However, the real challenge is to retain this productivity even after Ramadan. Therefore, we recommend that we

- Start Ramadan with Introspection.
- Set goals to be accomplished based on self introspection and life style.
- Make a plan of how to accomplish it.
- Schedule daily activities and follow them strictly.
- Keep important tasks at early hours of the day when we are fully charged.
- Prepare a chart for Prayer and Azkaar around fixed Salah timings.
- Be hard on yourself as it'll help in training our Nafs.
- Time dinner immediately after Tarawih so that we have enough time for sleep, and get wake up for Tahajjud & Sehr.
- Desist from chatting, gossiping, unnecessary phone calls and all other trivial things while we are at work.
- These when practiced consistently makes life rewarding and productive.

## MS DEVELOPS CURRICULUM TO MEET 21ST CENTURY CHALLENGES

**Sana Naseer / Zara Saleem**

The new millennium or the 21st century brought lots of new challenges in educational arena with it. The teaching and of learning process has undergone a sea of change in the last decade. Day in and day out new teaching techniques are being invented to prepare students to face the new challenges and run with this fast changing trend.

The old teaching and learning techniques have become obsolete and to keep pace with the fast changing world and to stay ahead, the students must be taught such curriculum that matches the present day needs.

Seeing this rapid change in educational arena, MS is constantly updating its teaching and learning method to prepare the students to head on the new challenges. This academic session MS develops a unique curriculum to meet 21st century challenges

This year 2015 MS introduces a new subject to the students' curriculum called "MEMORY CURRICULUM" Mr. Mohammed Abdul Lateef Khan the person behind the idea said introducing memory book to the curriculum shall enhance the thinking capability, sharpen their memorization skills, develop leadership skills and none the less produce WORLD WORTHY INDIVIDUALS. This is the motive behind this book.

This book is made in a way that it engages with the students. It is just a book with which the child can play and enjoy. It has lots of activities to sharpen the thinking skills in children. The book emphasizes on creativity at a tender age, and works on thinking and memorization techniques for higher standards.

In a survey on Indian education system, it was found that because of theoretical examination system our children have lost their creativity skills. By mugging up bundles of fat books,

they give up their thinking, imaginative and creative abilities and thus become book-worms. It gradually makes them narrow minded, bounding their way of thinking, losing their individuality in producing their own ideas, contents and developing in other areas of life.

This memory book enhances these abilities, helps them to build up their confidence to stand for their identity.

### CALENDAR FOR THE MONTH

**Ramadan and Eid-ul-Fitr Holiday**  
15-7-2015 to 20-7-2015

**School Re-opens on**  
21-7-2015

**FA1 Schedule**  
27-7-2015 to 30-7-2015

**Upcoming Event**  
Green Day  
1-8-2015

## MS THROUGH THE EYES OF STUDENTS

We got tremendous response on the above topic. We tried to publish as many responses as possible. However, due to crunch of space we could not accommodate all of them.

The responses are really good and interesting. Each and every response is of varied nature and throws light on the uniqueness of MS. We appreciate all the contributors for their participation.

MS believes in actions and deeds not on high words. So instead of boasting we decided to introspect our work and see it through the eyes of our students for whom all our endeavours are meant. **(Editor).**

while starting a course. It gives you an idea of what you will be learning and helps you to have a clear goal.

**PLANNER:** When you see your syllabus make an approximate planner for the term. Move along this planner by checking it regularly.

**NOTES:** While you listen to a lecture, make sure you understand the concepts, and make quick notes on the concepts you feel you will not be able to remember later on. While reading a text highlight the main points.

### ASSIGNMENTS AND EXAMS:

Assignments are an integral part to test and enhance your understanding. Ask your teacher anything which you don't understand. As for exams, relax and go for it. If you have worked hard enough on a consistent basis throughout the year, there is nothing for you to panic during exams. You are already prepared! The only thing you need is to revise properly.

**STUDY IN GROUP:** One of the best tips a student can apply is studying in groups. You explain the core concept to your friend and your friend will explain the core concept to you.

And lastly, never forget that education is for life, not for living. We go for various causes to educate ourselves and not to attain a mere degree. Education is for developing our skills as righteous human beings that increase our moral and intellectual values.

I wish you all a Successful, Beneficial and Enjoyable upcoming academic year.

Don't study to earn  
Study to learn  
What you learn today  
Is what you will  
Become tomorrow

## HOW TO ELIMINATE EXAM FEAR

**Ajmal Hussain** (Vice Principal)  
**MS Creative High School**  
Mallepally Branch

If you have been filling buckets with your own sweat at hearing the word 'exam' get a grip of yourself! A solution has been found. You will not have to worry about exams any more after reading this page.

'Studying' is the keyword. All of us, or at any rate, most of us study before exams, but how well we study is important. You should concentrate, so try to find a quiet, well-lit room to work in. While you are at it, you might as well get rid of your mp3 player. It will not help you with grammar.

The best you can do is revise, learn your notes every week and ask your teacher if you find anything that is not clear. You might also consider making a revision time table.

If I were you, I would not only stick to my notes, but also use other references like course book and exercise book. That will help to increase your knowledge.

If you take some of this advice, you might actually be going into the exam with a smile on your face.

## 10 TIPS TOWARDS SUCCESS

**Nazima Khatoon** (Vice Principal)  
**MS Creative High School**  
Asif Nagar Branch

Applying small and smart tips can be amazingly beneficial in any field of our lives, whether it be as a student, a mother, a sister, a friend. Thus I share with you in this article some small and smart tips that will In-Shah-Allah lead you to a successful academic year.

Having effective study plans can lead to the pinnacle of success and you will be amazed how applying small tiny tips can bring a revolutionary change to your student life. So, ponder over these small tips, try them out, hopefully they will work for you.

**SINCERITY:** Studying any subject in any field requires total sincerity. Sincerity is to seek the knowledge to please Allah (S.W.T) and a determination to apply that in our actions.

**KNOW YOUR GOAL, STAY MOTIVATED:** One of the problems students face in their studies is lack of

motivation. And I personally feel the reason for this lack of motivation is not understanding one's goal of studies. Fill your heart with joy, makes you enjoy your studies and keeps you motivated throughout.

**TIME:** Be prepared to give enough time to your studies. If you give the required time and effort, Allah (SWT) will give you the required result. Set aside a fixed time for daily studies and make it fixed. Make sure that you study on a daily basis.

**STUDY PLACE:** Just the way you have a specific place for sleeping, eating and cooking, likewise you should have a place for studying as well. Your study place should be very quiet and away from distractions. This will help you to focus.

**FOCUS:** While you are studying remove all sorts of distractions around you. Focus is the keyword for success in every action. Do not study when you are hungry, sleepy or tired.

**SYLLABUS:** It is an extremely helpful tip to go through your syllabus

## MS LADDER TO REACH “SUCCESS”

As you know MS Creative School is one of the best schools in the world. The full form of MS is Memory Scholar. It is a Unique School. Here with modern education Islamic-education is also given. Alhamdulillah, as I am also an MSian, I feel very proud to say that I am a student of this school and only few lucky ones get a chance to be the part of this school MS, gives us the best quality education with their traditional thought and the sunnah of our Prophet (P.B.U.H). In our school, we celebrate so many exciting events like Vanamahotsav, Sports day, Akhlaaq Show, Grand-Parents day, Science Fair and English Fiesta every year.

“DISCIPLINE” and SINCERITY” are the key to reach Success and here we get a chance to learn etiquettes Mashallah and Alhamdulillah all the staff members are very polite to us. I thank Allah(S.W.S) and my parents for giving me a chance to be part of this school. I love my school.

PROUD TO BE AN MSian, Alhamdulillah the Best School Ever.

**Asna Aqheel | Class VII-F**

## MY SCHOOL

I always go to my school with a smile. My school's name is MS Creative High School. My school is located in the heart of Hyderabad city where transportation is easily accessible.

All the staff of my school especially our Principal and our teachers are very friendly and helpful. They use the easiest and logical method to teach us which makes learning fun for us. Every doubt raised by the child is dealt with utmost patience and willingness. This helps to develop a positive student-teacher relationship. Along with modern studies, Islamic studies are also taught which helps us to become a better individual.

We have a huge playground at school and a sports instructor too who helps us learn the games and its rules as “A healthy body leads to a healthy mind”. There are lots of indoor games too like chess, carroms, snakes and ladders.

In this modern world of technology, we have latest computers which help us to grow intellectually. The library of the school has a vast and variety of books on all subjects as well as story books too to improve our communication skills. So, today's reader is tomorrow's leader. Thus my school is the best school as it lays a stepping stone to my success.

**S. Fazeelath | Class VII-G**

## WHAT MAKES OUR SCHOOL UNIQUE

My school has many unique things. But I like one main uniqueness in our school is Deeni Taalim and Deeni Environment in our school. Daily we have one period for Deeniyath. And weekly our management conducts Ijtema. Apart from these we have extracurricular activities like C.E period, sports, games, field trips Aqhlaaq Shows and functions with these curricular activities where we gain more and more knowledge and experiences. We have periodical health checkups for students. Our teachers personally concentrate on weak students. Keeping Hijab in mind our school made our uniform. And our school also trains us how to be in Hijaab. In our school we get facility with good studies and knowledge. Our directors take every step for the sake of students only. Our teachers are very caring and almost all of them are of helping nature. They are always ready to help students. These things make our school unique. At the last I want to say that I am proud to be an MSian.

**Badarunnisa Begum  
Class VII-G**

I study in MS Creative High school. It is situated in Hyderabad. It is an Ideal school. It has nearly 51 branches across India. My branch is a big and double storeyed building. It has separate buildings for boys and girls. My school has a big library. It has 43 classrooms. The laboratories of our school are well-equipped. The students take part in various co-curricular activities. The principal of my school is a very good administrator. She always tries her best to improve the school. All the teachers in my school are hard-working. It has a unique method of teaching. It has a Moto of NUTURING CREATIVE POTENTIAL. They provide education as well as moral values which helps to improve the child's behaviour. MS is the first school in the city to provide modern as well as Deeni Taleem. Every year our school conducts Akhlaaq Show. In addition to all these, MS provides a homely environment.

**Sadiya Iram | Class IX-F**

In my opinion my school is nice with qualified teachers, sirs and talented students and with smart principal and directors etc.

The education provided to us is for all round development. My school allows me to offer prayers which many of the school won't. This is one uniqueness of my school. And the uniform of my school is also nice according to shariyat. My school is having Deeniyat staff which many schools do not have. This is another uniqueness of my school. While climbing up and coming down from the stairs we say “Allahu Akbar” and “Subhanallah”. I can say that many of the schools through out the world don't train their students to say “Allahu-Akbar” and “Subhanallah”. The school from which I came to this present school is was totally different. I mean to say that there was discipline, Islamic type of uniform and they used to give Islamic teachings also but the main thing is that there was no all round development for a student. There was no “Sports day” Akhlaaq Show, Grandparents day” in my previous school.

My present school celebrates “Grandparents day” on 1st Muharram to teach moral values, to obey our elders and to respect them. As every coin has two sides like that my school provides me both “Deen and Duniya” education. There are separate rooms for prayers. The whole school staff including vice principals and principal encourage the students to show their talent to the world.

And once a week there is one Activity period which is full of knowledge and information. These are the uniqueness of my school in my opinion. I want to thank my Principal for such comforts and for enlightening us.

**Amatul Haseeb Nida | Class X-F**

My school is the best school in the world I have ever seen. I love my school, my teachers and the chairman of MS CREATIVE SCHOOL a lot. I thank Allah that He gave me the opportunity to join such a lovely school. In my school there are Deeniyat classes and modern & Islamic atmosphere. My teachers are well trained and they teach us what is right and what is wrong. They teach us that education plays an important role in our day to day life.

About my schools achievements

This year the achievements have escalated greater heights and set new records. Our school has bagged 10/10 GPA results in SSC this year as well. University 1st rank in B.Com computers, best school awarded in Karimnagar and maintained 10/10 GPA in SSC which is again a highest level of achievement. Finally I thank our school directors for this inspirational trust which is the driving force behind all our school achievements. Our school has launched MS HIFZ Academy, a full time course designed with scientific approach to memorize the Holy Quran. I really thank Almighty Allah for giving me chance in such a nice school. And proud to be an MSian Alhamdulillah....!!!

**Abdul Muzil Ajwad  
Class VI-B**

First of all I am really thankful to Allah that I got a chance to share my views on what makes my school unique from others. The first thing that makes it unique is that it teaches both modern and Islamic education. Now-a-days, it is very important for Muslims to get educated. They forget about Islamic education and focus on modern education. But in a school like this, we don't have to leave Islamic or modern education. The thing I like the most is we start our day with the beautiful names of Allah and Suratul-Fatiha. Every day we make an intention that we are learning to praise Allah. The teachers here encourage us to improve ourselves more and more so that we can become “the perfection of MS”. The staff is very polite with us and they teach us to be good mannered everywhere. The best thing is that they allow us to offer Salah daily. They teach us to pray five times a day. Unlike other schools, teachers here give examples related to our daily life. They want every student to understand the concept. They clarify our doubts. They assign us projects so that the students can understand the concepts practically. They encourage us to participate in all kinds of events. Hence I can proudly say “MY SCHOOL IS THE BEST”.

**Khaja Ifham Uddin  
Class VIII-A**

## POEM ON RAMADAN

Ramadan is here, the month that is blessed “RAMADAN” is here, the month that is loved the best the month in which the Quraan was sent.

A time of great blessings in which to repent, fasting for Allah is a great Muslim deed controlling desire and suppressing deeds.

Ramadan is increase your Imaan.

Ramadan is to recite the Quraan

Take “saher in the dead of the night

No eating or drinking during daylight.

Refrain from bad deed and repent your soul, the pleasure of Allah is our only goal. Even if there is Hunger, Remember your lord! And wait until iftar to earn you reward.

Fasting is one of the gifts of Allah. Given to believers to increase Taqwah (Piety) We pray to Allah to put right our hearts.

Ask for forgiveness from Allah and Make a New start.

Raising our hands we ask for Ramadan, Hear us Lord and Grand-us-Jannah

**Saniya Akther | Class IX-G**

The days are fast approaching. The time is drawing near, To welcome the most blessed month an occasion when mercy descends like the rain. So good deeds can increase and the bad ones can wane.

A short interval in which the devils are confined.

So we can fast forward instead of rewind.

Hidden in this month is the special night of power,

In it the acceptance of Allah will shower,

How unfortunate is the one who lets this movement slip

For its equivalent to a thousand months of worship

So let us start now and prepared for the fast and shrine.

To make this Ramadan better than the last.

**Nabeela Nausheen & Ayesha Tazeen**

# WHY MY SCHOOL IS UNIQUE

## Why the MS Creative School is Unique?

Assalamu-alaikum, I am Syeda Zainab, presently a student of MS Creative School, Asif Nagar Branch Class X, the outgoing batch of MS. I really don't know anything much about this school, as I am a new comer and joined the school last year. I thank almighty Allah and my mother for admitting me in this school, all the way from Kolkata to Hyderabad. I was really surprised to see this school at the beginning but slowly I became familiar with the culture here. This is really a unique school. And the speciality which makes it different from other schools is the environment here. The pure culture of Islam is in the air of MS. MS is not only the achievement of our director Mohammed Abdul Lateef Khan, but it is our pride. I am heartily proud to be an "MSian". I, being a Muslim, admit I really didn't know so many things about Islam. But truly speaking from my heart, I learned to be a good follower of Islam. And I really thank God to make me learn such innovative and wonderful things and I believe Allah has chosen me to be a "MSian" to convey his messages to me as I was going far away from the love of Allah, he bound me to MS. The unique culture and environment of this school can make any positive change in a person to make them a better personality. The Teaching and the managing staff is so much bound to Islamic rules strictly that it keeps on inspiring us. After joining MS, I came to know that I was far away from Heaven. I wish all the MSians to be successful and make MS a memorable mark in each field. Our school has many creative activities far inspiring the student the teachers gives us equal chance in all the activities. The educational field trips, the activity class are the fun way to gain more and more knowledge. To make this world a better place, MS has given the Muslims, the minority part of the society a hope of success. And at last I would really thank our director to bring up such a unique school for girls where we can gain education safely. May God bless us all and help us to become successful achievers in life, and spread Islam as well as education to every nation of the world. Let's together make MS a desired School.

**Syeda Zainab | Class X**

## What Makes Our School Unique?

Our school is really unique, Yes! It's MS Creative School, It's Unique because of its salient features. Firstly, our school is very big with so many trees that makes us feel pleasant. Now, about the teachers, they are very talented and qualified and they work hard for making students capable not only for anything, but for everything. They give us very friendly and helpful atmosphere. And the most awesome uniqueness about our school is that, our directors made a school not only for modern studies but also for Islamic studies, which will help us here and hereafter. MS doesn't do hard work, it does smart work. Because of teachers hard work, and principal's guidance our school grabbed many prizes, ranks, and achievements that have scaled greater heights. Our school teaches us good manners everyday, but for understanding it more clearly "Akhlaaq Show" is conducted every year. Every year there are many new topics for this. Teachers, Principals, students work very hard for this show. Our teachers help us in reaching our goals and "Success". MS has many branches across India, This is because of hard and smart work of our directors, principals and teachers.

And at last I thank you for giving me such an opportunity to elaborate about my school.

**Huria Fatima | Class IX-G**

## What Makes Our School Unique?

There are many things that make our school unique, like our school has an excellent teaching staff and more than that our school teaches about our religion Islam. That is more useful in our daily life as well as our akhirat/hereafter. (Day of Judgment)

We have a very good and understanding staff that makes everyone perfect and motivates us to achieve our goal in our life as well as akhirat. Our school also makes us perfect. Offering Namaz in a good way and also gives us time for offering Namaz, that makes our school more unique. In our school assembly we read Surah-e-fateha, hadees, sunnaths, dua and Nazm and I thank Allah for all this.

**Abdul Hannan Ansari | Class VIII-B**

## Proud to be an MSian

MS Creative School is the best school among all the schools. First of all I want to tell about my Teachers. My Teachers are very much caring, loving and also very sweet in the world, they care for me like my mother. They help me in every matter they teach me for my sake, I love them more than my life. A couple of thanks wouldn't be enough to say to my lovely teachers. Then I would like to say about the Management, they always think about the students. They organize Sports Day to keep us healthy and fit, and also Aqhlmaq Show, Grand Parents Day, English Fiesta, to improve our English skills. To refresh our minds and they organize many more interesting competitions. Now about my classrooms, the classrooms are big and ventilated. I would like to thank my parents who had given me good surrounding like my school. I love my school very much.

**"PROUD TO BE AN MSian"**

**Khadeeja Khaja | Class VII-F**

## Why MS Creative School is unique?

MS education academy works at the grass root level to provide well balanced modern and Islamic education. MS is unique because it is the first school to introduce both modern and Islamic education. It nurtures the brain of the students to become a responsible individuals. MS has set bench marks in the field of education. Since its inception it has been working hard for the successful future of students in both the worlds. First and foremost, MS is unique because of its facilities. Teaching is their passion not profession. They do not just teach, but discover subjects along with students. They motivate the students. MS is unique as it provides good environment for students for learning. It organizes activities such as Activity show, Graduation Ceremony, Aqlaaq show, Grand parents day, Sports Meet, Science Fair and English Fiesta. They provide the students to take part in such activities, apart from the studies, so that they can develop their thinking as a student. I am very thankful to our director for providing such a unique institution for us.

**Syed Azeem-ul-Rahman | Class VIII-B**

## HEARTY CONGRATULATIONS TO Mohammed Numaan

### MSian wins International Award

MSian Mohammed Numaan bagged a cash prize of rupees 70,000 and a certificate in a competition held in Dubai. He participated in the Dubai International Holy Quran competition held on 28th April 2015. He won the 6th position. Mohammed Numaan s/o Mohammed Nafees Ali is student of MS Creative School, Class IX-B, Mallepally branch.

There were 100 participants in this competition across the sub continent and other Islamic countries.

The school management congratulates Mohammed Numaan and wishes him a bright future.

**Mohammed Numaan | IX-B**

**Shaista Khanam | Class VII-G**

MS Creative School is first of its kind where modern education is taught keeping the Islamic principles and fundamentals intact. What makes it unique is the atmosphere of the school where a student flies on the wings of both modern and Islamic Education.

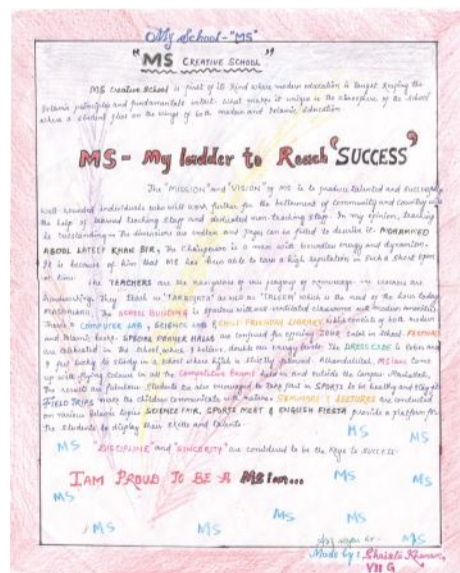

## MS - MY LADDER TO REACH 'SUCCESS'

The "MISSION" and "VISION" of MS is to produce talented and successful individuals who will work further for the betterment of community and country with the help of learned teaching staff and dedicated non-teaching staff. In my opinion, teaching is outstanding... The dimensions are endless and pages can be filled to describe it. MOHAMMED ABDUL LATEEF KHAN SIR, The chairperson is a man with boundless energy and dynamism. It is because of him that MS has been able to earn a high reputation in such a short span of time.

The "TEACHERS" are the navigators of this flagship of knowledge. They are hardworking. They teach us 'TARBIYATH' as well as 'TAALEEM' which is the need of the hour today. MASHALLAH, the SCHOOL BUILDING is spacious with well-ventilated classrooms and modern amenities. There's a COMPUTER LAB, SCIENCE LAB AND CHILD FRIENDLY LIBRARY which consists of both modern and Islamic books. SPECIAL PRAYER HALLS are conferred for offering ZOHR salah in school. FESTIVALS are celebrated in the school, which I believe, double our energy levels. The DRESS CODE is sober and I feel lucky to study in a school where hijab is strictly followed. Alhamdulillah, MSians come up with flying colours in all the Competitive Exams held in and outside the campus. Mashallah, the results are fabulous. Students are also encouraged to take part in SPORTS to be healthy and stay fit. FIELD TRIPS make the children communicate with nature. SEMINARS AND LECTURES are conducted on various Islamic topics. SCIENCE FAIR, SPORTS MEET & ENGLISH FIESTA provide a platform for the students to display their skills and talents.

"DISCIPLINE" and "SINCERITY" are considered to be the keys to "SUCCESS"

**I AM PROUD TO BE AN MSian...**

## Poem on Ramadan

The Month when the Devil is chained the desired is drained.

When stomachs are trained and

Good deeds are gained.

The Qura'an read and explained Taqwah attained.

Modesty & humbleness obtained.

Remembering thou who are hungry and pained.

The month of the night of the power

1000 months equal to just hours.

The forgiveness of Allah about to shower

The month of transformation,

When the greedy one gives donation

When the proud falls in prostration,

When the angry one resists from frustration,

When the sinful one seeks salvation and resists temptation.

The month of the blessed fast where forgiveness is asked Muslims in masjid are massed the lines spreading far and mast. So take advantage before is passed Ramadan is here at last.
