### Paradise is for Momineen

Always pray to Allah only, because Allah only gives food to eat, water to drink, and Allah only makes us rich and poor. This earth is a prison for a real momin (believer), and for a disbeliever of Allah this earth is a paradise.

On the day of judgement, all real momineen (believers) will go into paradise.

### Earth Song

What about sunrise,  
What about rain,  
What about all the things,  
That you said we were to gain.....  
What about killing fields,  
Is there a time?  
What about all the things  
That you said was  
yours and mine.....  
Did you ever stop to notice?  
All the blood we've shed before  
Did you ever stop to notice?  
The crying earth, the  
weeping shores?  
What have we done  
to the world?  
Look what we've done  
What about all the peace  
That you pledge your only son.....  
What about flowering fields  
Is there a time  
What about all the dreams  
That you said was  
yours and mine.....  
Did you ever stop to notice?  
All the children dead from war  
Did you ever stop to notice?  
The crying earth, the  
weeping shores

### Verbal wound never heals

There was once a little boy who had a bad temper. His father gave him a bag of nails and told him that, every time he lost his temper, he must hammer these nails into the wall.

The first day the boy had driven 37 nails into the wall. Over the next few days, he could hammer 40 nails. As he learned to control his anger, the number of nails hammered daily gradually fell down. He discovered it was easier to hold his temper than to drive those nails into the wall.

Finally, the day came when the boy didn't lose his temper at all. He told his father about it. His father suggested to pull out one nail each day. That he was able to hold his temper.

The days passed and the young boy was finally able to tell his father that all the nails were taken out. Then the father took his son and went to the wall. He said, "you have done well, my son, but look at the "HOLES" in the wall. The wall will never be the same. When you say things in anger, they leave the scar just like this one".

Remember, once you hurt your loved ones, It won't matter how many times you say sorry, the wound will still be there.

"A verbal wound is worse than a physical ones."

### The Lovely Memories of Our Past

Once upon a time! When window was just a square hole in a room & application was something written on a paper. When keyboard was a piano and mouse just an animal. When file was an important office material and hard drive just an uncomfortable road trip. When cut was done with knife and paste with glue. When web was a spider's home and virus was flu. When apple and Blackberry were just fruits..... that's when we had a lot of time for family and friends!

### The obstacle in our path

In ancient times, a king had his men placed a boulder on a roadway. He then hid in the bushes, and watched to see if anyone would move the boulder out of the way. Some of the king's wealthiest merchants and courtiers passed by and simply walked around it.

Many people blamed the King for not keeping the roads clear, but none of them did anything about getting the stone removed.

One day, a peasant came along carrying vegetables. Upon approaching the boulder, the peasant laid down his burden and tried to push the stone out of the way. After much pushing and straining, he finally managed to remove the boulder from the

road.

When the peasant went back to pick up his vegetables, he noticed a purse lying on the road where the boulder had been. The purse contained many gold coins with a note from the King explaining that the gold coins were for the person who removed the boulder from the road.

**Moral of the story:** Every obstacle that we come across gives us an opportunity to improve our circumstances, and while the lazy complain, others are creating opportunities through their kind hearts, generosity, and willingness to get things done.

### The Five Pillars of Islam

Allah is one, and like no one,  
He has no partner, nor a son,

He is kind just and wise,  
And has no form, shape or size.  
His final messenger to all of us,

Did so much without fuss,  
Muhammed (PBUH) is his blessed name,  
As mercy to the world he came.

Five times a day we make Salah,  
That's when we bow down to Allah,

We ask for guidance when we pray,

And this we do every single day.  
We have to share with those in need,

And not give into thoughts of greed,  
Zakah then helps us in this way,  
Lest we should err and go astray.

In the month of Ramadan we must fast,  
from the first day to the last,  
When food and drink we put aside,

By fasting rules we then abide.  
And all those who can afford,  
Seek the pleasure of their lord,  
they perform the Hajj you know,  
when to Makkah the pilgrims go.

Shuhana Rabi VIII 'H'

### My Best Friend

Although you live far away from me,  
I always feel like you are with me,

I love to share my happiness with you,  
I love to share my sadness with you.

To me you are an ideal of gleam,  
And our friendship means a lot to me.

You are an ocean of happiness;  
you are a fountain of joy  
You are the rays of sunshine  
that brought amusement to my life.

I like sharing my thoughts with you,  
Because you are such a wonderful person to be around.

My life would have been a tragedy without you,  
I am lucky to have a friend like you.

Once upon a time, there was a farmer who used to sell butter regularly to a baker. One day, the baker decided to weigh the butter to see if he was getting the exact weight that he asked for. He found out that he wasn't, so he took the farmer to the court.

The judge asked the farmer if he would use any measure to weigh the butter. The farmer replied, "Your Honor, I'm primitive. I don't have a proper measure, but I do have a scale."

The judge replied, "Then how

do you weight the butter?"

The farmer replied; "Your Honor, long before the baker started buying butter from me, I have been buying a pound of loaf from him. Every day, when the baker brings the bread, I put it on the scale and give him the same weight of butter. If anyone is to be blamed, it's the baker."

## House System Introduced to inculcate leadership skills in MSians

**Hyderabad:** To inculcate leadership qualities in MSians right from childhood, MS has introduced School House System in all its branches.

The system has an established hierarchy line and provides positive competition among students and it also builds a close rapport between students and teachers to achieve common goals.

On the apex of the hierarchy line stands School Pupil Leader. He is selected by the principal after consultation with the class teachers. He is next to the Principal in respect of policy making related with students.

His main function is to ensure that students' concerns are brought to the notice of the school authorities. He also acts as liaison between the students and the school authorities.

The next position in the leadership hierarchy is Deputy School Leader who is also selected by Principal. He reports to School Pupil Leader.

The Deputy School leader also has an equally important role to play for the success of the activities and programmes of the school. His responsibilities include 1) Render support and cooperation to other captains, 2) Manage student discipline and inculcate good behavior, 3) Exhibit exemplary role model and self-discipline.

Besides that there are 6 committees: namely 1) Literary Committee 2) Science Committee 3) Creativity Committee 4) Deeniyat Committee 5) Sports Committee 6) Cultural Committee. These committees are headed by a President who are selected by the subject teachers. Next in line is House captains

followed by Mentors and Bench monitors.

The school is divided into four different houses. And each house is lead by house captains. The House captains represents houses and reports to deputy School leader. He/ she is selected from class IX.

The house captains are expected to: 1) Supervise and coordinate all house activities along with the house parents, 2) Encourage the house members to take part in the house competitions, and 3) Exhibit exemplary role model and self-discipline.

Mentors are selected / elected in each class (other than IX class) by Class Teacher and he /she reports to respective house captains / Deputy School Leader

He plays a crucial role in helping the class teachers in the

smooth functioning of the class. He acts as the overall in charge of the class for particular house and coordinate all class activities.

The last hierarchy is Bench Monitors. They are selected by the mentors in each class for each bench after discussing with class teacher. The Bench Monitors report to Mentors and act as guide for the student sitting along with him and coordinate all class activities.

The purpose of setting up the school house system is to give students an identity and sense of pride in a supportive, secure environment. Instills determination, team work, belongingness, creativity and collaboration among students. And brings awareness of the importance of community. Allows development of skills and talents and acknowledges their successes.

## Once again MSian scripted history in IIT- JEE with AIR 36th Rank

### 57 students succeeded in cracking IIT with flying colours

**Hyderabad:** MSian once again scripted history in IIT- JEE (Mains) 2018 examination by securing All India 36<sup>th</sup> Rank.

Muneeb Abdur Rahman secured 36<sup>th</sup> All India Rank in OBC category in IIT (Mains) 2018 examination. His success is a big achievement for the community.

He got 286 /360 marks. There are total 57 MS students who also qualified IIT (Mains) the examination with flying colours and got good ranks. This grand success enables them to take admissions in any of the premier Engineering colleges of their choice.

Seeing the pathetic representation of Muslims

youth in IITs and NITs of the country, MS Education Academy has taken the initiative to prepare them for this prestigious examination. And it is the result of this initiative that currently 46 pass outs of MS are studying in various reputed IITs / NITs of country.

In the words of Director Afzalur Rahman, there is hardly any premier institutions of country where MSians have not secured a seat.

The pass outs of these institutions are most sought after in the job markets. The big multinational companies hire them paying high pay packets.
