MS's SUCCESS Stories

I am Shaik Siraj, a 4th year undergraduate student at IIT Kharagpur.

I am from a lower middle class family and my father is a tyre mechanic. From a very young age, my entrepreneurial inspiration is Mark Zuckerberg. Inspired by his phenomenal success, my dream was to crack IIT and pursue Engineering from any Prestigious Institute like the IITs in India. I was always encouraged by my father and motivated by my teachers towards this.

Then I came to know about Talent Search Test conducted by M.S. IIT Academy. I appeared for the test cracked it with a good score and became a part of the selected students to join the M.S. IIT Academy, which is a Great place to prepare for the JEE.

Lecturers here are very talented and their teaching helped me a lot to crack Competitive Exams like the JEE MAINS, JEE ADVANCED, BITS etc. I was very determined during my stay at MS and worked consistently hard to achieve my goals.

With the help of MS and its teaching faculty, I was able to get a JEE Advanced Rank of 1018 and fulfilled my dream of Joining IIT Kharagpur, India's most prestigious Engineering Institute.

My happiness knows no bounds. I am Greatful to Allah SWT and thankful to Management of the M.S. Institutions for helping me throughout my stay at the M.S. College
